

Tell Newcastle City Council why we don't want road closures. This is our last chance to EMAIL AND FORMALLY OBJECT. Must be submitted by September 7th,

The Council have a legal duty to invite formal objections to the LTN being made permanent so they **MUST** consider your reasons.

Tell them why these closures must **NOT** be permanent.

Give them examples of how they have **not** made Jesmond safer, cleaner, greener.

Let them know the scheme is **harming** our local businesses.

Tell them it is redirecting **pollution** to other residential streets.

Explain how it is pushing traffic onto a hazardous right turn at Jesmond Rd.

Data shows it is forcing **longer** journeys and more miles creating worse **pollution** and their data does not back up their claims of benefits.

Let them know your **personal experience**, tell them about the impact on your life.
